

Alberta Dressage Association Dressage (ADA) Ranking List Rules

1. General Principles

The **ADA Dressage Ranking List** is based on:

- **Percentage scores** from **Gold and Platinum** competitions in Alberta, converted into ranking points.
- A **maximum of two (2) results per competition** will count toward the ranking.

2. Calculation of the ADA Ranking List

The **ADA Ranking List** is calculated over an **annual show season** from **January 1** to the final AB Gold/Platinum show each year.

At the end of each month, the points earned during that month are added to the ranking list.

The ranking is based on **Horse/Rider Combinations**, considering their **best results and percentage scores**.

3. Point System

A maximum of six (6) test scores will count toward the ranking.

The **ADA Ranking List** is determined by adding up to six (6) highest scores from the current show season.

Rankings are updated at the end of each month:

For each event, only the **two (2) highest scores** will be considered for ranking calculations.

In case of a tie:

- The rider/horse combination with **fewer counting results** will be ranked higher.
- If the number of counting results is the same, the rider/horse combination with the **best single result** will be ranked higher.
